

# ATMA - algo(NEG-LLM) (1)

## GETTING STARTED

1. [Installation and Setup](#)
2. [How to read these docs](#)
3. [Starter Tutorial](#)
4. [High-Level Concepts](#)
5. [Customization Tutorial](#)
6. [Discover LlamaIndex Video Series](#)

## USE CASES

1. [Q&A](#)
2. [Chatbots](#)
3. [Agents](#)
4. [Structured Data Extraction](#)
5. [Multi-modal](#)
6. Toggle child pages in navigation
  - a. [Advanced Multi-Modal Retrieval using GPT4V and Multi-Modal Index/Retriever](#)
  - b. [Multi-modal retrieval with CLIP](#)
  - c. [Image to Image Retrieval](#)
  - d. [Retrieval-Augmented Image Captioning](#)
  - e. [Multi-Modal LLM using Replicate LLaVa, Fuyu 8B, MiniGPT4 models for image reasoning](#)
  - f. [GPT4-V:](#)
  - g. [Multi-Modal GPT4V Pydantic Program](#)

- h. GPT4-V Experiments with General, Specific questions and Chain Of Thought (COT) Prompting Technique.
- i. Evaluating Multi-Modal RAG
- j. Chroma Multi-Modal Demo with LlamaIndex
- k. Multi-Modal on PDF's with tables.

## UNDERSTANDING

1. Building an LLM application
2. Using LLMs
3. Toggle child pages in navigation
  - a. Privacy and Security
4. Loading Data (Ingestion)
5. Toggle child pages in navigation
  - a. LlamaHub
  - b. Documents / Nodes
  - c. Toggle child pages in navigation
    - i. Defining and Customizing Documents
    - ii. Toggle child pages in navigation
      1. Metadata Extraction Usage Pattern
      2. Toggle child pages in navigation
        - a. Extracting Metadata for Better Document Indexing and Understanding
        - b. Automated Metadata Extraction for Better Retrieval + Synthesis
        - c. Entity Metadata Extraction
        - d. Metadata Extraction and Augmentation w/ Marvin
        - e. Pydantic Extractor
    - iii. Defining and Customizing Nodes

- d. Node Parser Usage Pattern
- e. Toggle child pages in navigation
  - i. Node Parser Modules
- f. Ingestion Pipeline
- g. Toggle child pages in navigation
  - i. Transformations
  - ii. Advanced Ingestion Pipeline
  - iii. Async Ingestion Pipeline + Metadata Extraction
  - iv. Ingestion Pipeline + Document Management
  - v. Redis Ingestion Pipeline
  - vi. Building a Live RAG Pipeline over Google Drive Files
- 6. Indexing
- 7. Storing
- 8. Querying
- 9. Putting It All Together
- 10. Toggle child pages in navigation
